EDUCATION

DAYANANDA SAGAR COLLEGE OF ENGINEERING

Bachelor of Engineering in Computer Science

Cumulative GPA: 8.74/10

Bengaluru, KA, India

Aug 2019 - May 2023

WORK EXPERIENCE

Kulicke and Soffa (Contractor: ASM Technologies Ltd.)

Software Engineer - Full Stack Development | Bengaluru, KA, India

Mar 2024 – Present

- Developed **10+ REST APIs** and **50+ unit tests** (Jasmine, Jest), achieving **100% code coverage**.
- Optimized Elasticsearch queries by **10x** by **restructuring data storage**, reducing data transfer between Elasticsearch and API.
- Selected to **evaluate AI coding tools** (Cursor AI, Tabnine, etc.), for **company-wide implementation**, using which - **reduced time complexities by 40%**, and **redesigned API architecture** with **layered validation**, eliminating API failures.
- Designed **Keycloak authentication** with AD group-based authorization, enabling scalable access management across applications, built on **microservices principles**.
- Managed **DEV/UAT server deployments**, accelerating release cycles by **50%**.
- Awarded **Employee Excellence Quarterly Award** for **Q4 2024** for performance optimization and architectural improvements.
- Architecting and leading end-to-end development of a reusable **licensing module** with **RSA/AES encryption** and hardware fingerprinting, designed to support offline validation and scale across multiple products organization-wide.

Software Engineer Intern | Bengaluru, KA, India

Oct 2023 – Mar 2024

- Enhanced UI features for a **real-time big-data application** using [React.js](#), Elasticsearch, Docker, achieving **data retrieval across a 2-year span within minutes**.
- Implemented a configuration export feature in React.js for Ball Bonder machine UI, **reducing fleet-wide deployment time by 90%**, from hours to minutes.
- Designed comprehensive **UML diagrams** for API design and **built POCs** using UI and API queries to Elasticsearch, validating features before full-scale implementation.
- Fixed critical production issues, improving system stability.

PROJECTS

DYNAMIC GESTURE RECOGNITION - [Link](#)

May 2023

- Real-time vision-based sign language-to-text and speech system to improve the quality of life for individuals with hearing and speech impairments with 99.8% accuracy.
- Awarded **Best Project Presentation Award** in Computer Science Department (out of 71 teams)
- Presented at the **State Level Project Exhibition** organized by KSCST (Karnataka State Council for Science and Technology)
- Domain: **Deep Learning**; Languages/Tools: Python, PyTorch, **YOLO v5 Algorithm**, **R-CNN**

DECRYPT - [Link](#)

Aug 2021

- A personalized cryptocurrency collection web app for real-time tracking of favourite coins in INR, eliminating the need for constant coin searching.
- Tools/ Frameworks: HTML5, CSS3, **JavaScript**, EJS, **ExpressJS**, **Binance WebSocket**, NPM packages, ROBO 3T; Database: **MongoDB (NoSQL)**

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Frontend Frameworks:** React.js (Redux), Next.js, Vue.js
- **Backend & API Development:** Node.js, Express.js, OAuth, JWT, RESTful APIs
- **Databases:** MySQL, MongoDB, ElasticSearch
- **DevOps & Tools:** GitHub, Docker, Postman, Atlassian Suite (Jira, Confluence, Bitbucket, Bamboo), CI/CD
- **Testing & Quality Assurance:** Jasmine, Jest (Unit Testing), Integration Testing, LoadRunner (Performance Testing)
- **System Design & Architecture:** Microservices Principles, API Layered Architecture, UML Diagrams, Scalable Application Design
- **AI Tools:** Cursor AI, Tabnine, GitHub Copilot
- **Other Skills:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Agile Methodologies, **Licensing Systems**, **Hardware Fingerprinting**, **Data Encryption (RSA/AES)**

ADDITIONAL

- **Languages:** Fluent in English, Hindi, Kannada
- **Udemy Certifications:** [Google Data Analytics Professional Certification](#), [The Python Bible](#), [The Complete SQL Bootcamp](#), [MS Excel Beginner to Advanced](#), [The Complete Web Development Bootcamp](#), Data Warehousing Fundamentals, AWS Essentials Introductory Course, Apache Spark and Hadoop, Agile Methodologies
